EXPERIENCE

Adecho Technologies — Web developer

DEC 2023 - JUNE 2024

Worked on three major projects focusing on frontend development using React.js, Tailwind CSS, and DaisyUI:

1. **Avyan Enterprises:** Built the full frontend of the company website from scratch in close collaboration with design and development teams to ensure responsiveness and user experience.
2. **700 Form:** Designed and developed the frontend interface and integrated APIs to manage data flow and application functionality. Using technologies like React js ,Tailwind css,Daisy ui , Axios for api fetching.
3. **Adecho Technologies Website:** Led the development of the company's website with a focus on branding, usability, and clean UI/UX.
